EXPERIENCE

Since 2023

Kaufland Vertrieb GmbH & Co. KG
Student Job

- Customer support
- Assistance in the store

2021 –2022

GOLD Unternehmungsentwicklung GmbH
Part-time Assistant

- Preparation and follow-up of workshops and seminars
- Support with administrative tasks
- Collaboration with project managers and project coordinators in daily business

PROJECTS

2022 - 2025

Game projects at the HNU

During my studies, I worked in teams of 7 to 9 people on a variety of game projects. In the second semester, we developed a vertical slice for a 2D point-and-click adventure. The third semester focused on a serious game created in close collaboration with our client, the Handwerkskammer Ulm (Chamber of Commerce in Ulm). In the fourth semester, we built a 3D real-time tactics game, followed by a vertical slice of a role-playing game in the fifth semester. Alongside that, I also co-designed a board game with a teammate. My main role throughout these projects was technical implementation, but I regularly contributed to game design as well.
